https://info.lww.com/2022-HLA-Ovid-Webinars

Ovid Discovery: the world's most advanced discovery platform; developed specifically for health libraries; provides users with a single-search, one-stop shop solution for all their research needs

Ovid Synthesis Clinical Evidence Manager

Ovid® Synthesis is a workflow management solution that organizes, standardizes, and accelerates quality improvement, evidence-based practice, and research projects across your organization.

Ovid® Synthesis

Clinical Evidence Manager

Organize, standardize and accelerate quality improvement, evidence-based practice and research projects across your organization

[Log in to Ovid Synthesis →] [Learn more]

Executive dashboard
Reporting and real-time visibility into all projects within the institution

Standardized workflows
Configurable templates which reflect organizational best practices

Integrated search
Find literature with full text retrieval options directly within the system

Literature appraisal
Configurable appraisal forms with AI-driven features to accelerate data extraction

Collaboration features
Encourages discussions within the system to document and track the evolution of the project

Evidence synthesis
Automated assembly of key project outputs into a summary document or presentation

Wolters Kluwer

Lippincott®
Solutions

Evidence-based tools to build clinical capabilities

Develop critical thinking and clinical decision making

Quick, easy access at the point-of-care

Wolters Kluwer

How can Lippincott Solutions help with workforce capability?

Pre-register for our **Lippincott Procedures & Advisor Australia** webinar early 2023 to learn more!

https://info.lww.com/2022-HLA-Ovid-Webinars

Competency is defined by the American Nurses Association as an expected level of performance that integrates knowledge, skills, abilities, and judgments. (ANA, 2014)

➢ Procedures = Skills & abilities
- "The HOW" 445 Clinical Procedures, videos, images supported with comprehensive referencing
- Many hospitals use the skills checklists in Lippincott Procedures to document observation of competency demonstration as well as to put remediation plans into place where needed.
- Support education, training and development from novice to expert

➢ Advisor = Knowledge and judgements
- "The WHY" evidence-based information to support critical thinking and bridge the knowledge gap
- Lippincott Advisor entries can also serve as resources for knowledge and judgment competencies

- Supporting appropriately trained staff for competency-based rostering and developing an agile workforce.

- Ease of access; 20-2 rule

What's new and coming!

- Medical Education resources and Lippincott Medical Procedures – New!

- Journal publishing collaborations
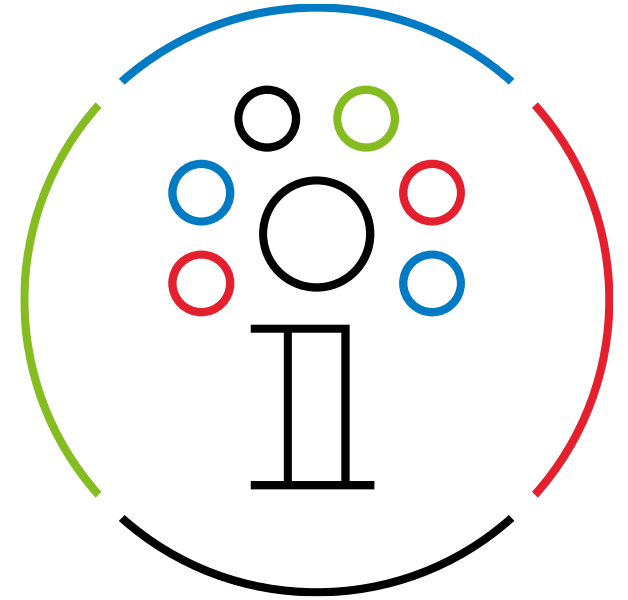

Ovid®, the world's most trusted medical research platform, has been a vital part of healthcare for over 20 years.

Ovid's flagship platform is the leading choice globally among clinicians, researchers, educators and students in the medical, scientific and academic fields.

Medical Education Resources

Broad range of content designed to support students through training and into practice

- **Bates Guide to Examinations** – includes communication and interpersonal skills. Includes approaches for patients who identify as LGBTQI+, persons with physical disabilities, and diverse populations

- **TelemedInsights** – trains students, residents, and clinicians on how to conduct a successful, person-centered telehealth visit.
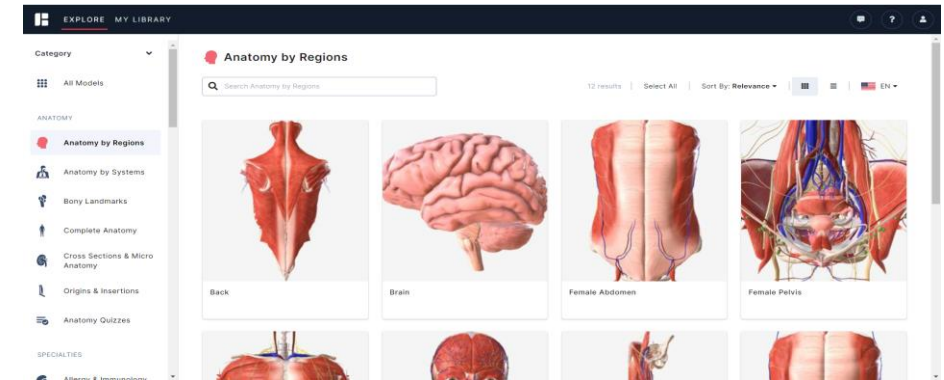

- **Acland's Video Atlas of Human Anatomy** – 330 searchable, narrated videos with labeling teach structural and functional human anatomy with foundational and layered bone to skin approach.

- **BioDigital Human platform** - offers medically-accurate interactive 3D anatomy models, diseases, health conditions and their treatments on fully embeddable, cloud-based software on any desktop, mobile device, or in AR/VR.

LWW Health Library

- Highly-rated Lippincott reference and textbooks
- Video clips of techniques, procedures, and physiological processes
- Multiple-choice Q&A to gauge performance and target areas for remediation
- Regular content updates as new book editions publish or ancillary content is acquired/updated
- Content that is sharable with classmates and colleagues
- Advanced semantic search that guides users to results displayed by title, chapter, topic, and/or type of resource
- Responsive design for browsing content on computer, tablet, or smartphone with ease
- Downloadable book chapters for note taking or to print
- Integration with Ovid MEDLINE® surfaces journal content relevant to chapter topics
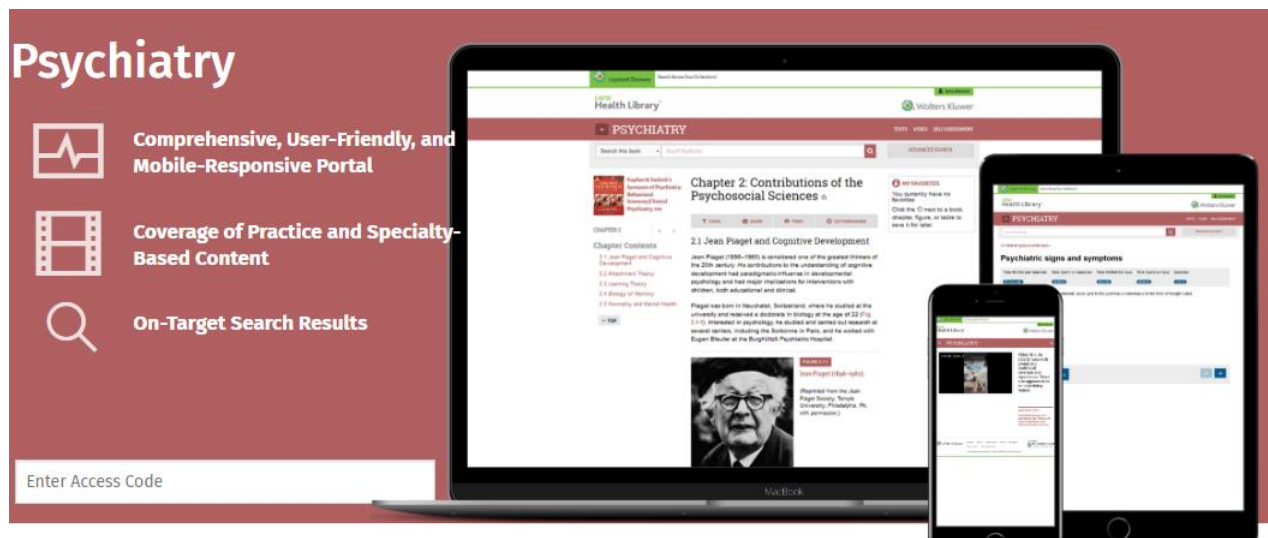

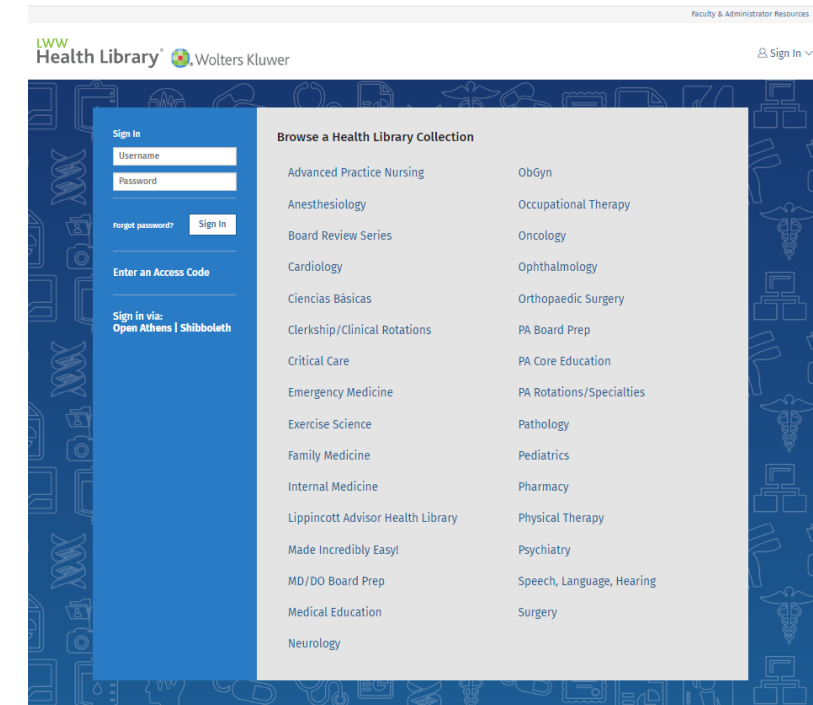

Key Lippincott books in the Psychiatry Health Library include:

- Kaplan & Sadock's Synopsis of Psychiatry
- Kaplan & Sadock's Handbook of Psychiatric Drug Treatment
- Lewis's Child & Adolescent Psychiatry

Note: we always add new book editions as soon as they are published!

Lippincott® Medical Procedures

Coming soon
